In this season, the main promotion of the berry tones symbolizing the energy of life, expressing the desire for sunlight, complemented by earth tones make the overall sense of the very soft atmosphere, Crimson, Carambola, candied Orange and other colors constitute the warm tones, but in the warm tones and add some, such as sage leaves, tan, black and other dark tones. The warm crimson, apricot pink is more like the care of emotions in autumn and winter, berry color scheme, the color overlap is very soft, with very natural. It is said that the fallen leaves in autumn nourish the tree, the same use of material yarn, mainly wool material, biodegradable recycled environmental protection materials. And the use of a blend of minimalist style, bohemian elements, maple elements through special cutting and design, with plant halo to reach innovative clothing. All these prove that this fall and winter trend is using seasonal elements, highlighting life energy berry colors and subdued earth colors to experience the warmth of the human heart in the fall and winter, highlighting the care for nature.

Jigsaw

Founded in 1970 by John Robinson, Jigsaw's brand is based on British high street style with a distinctly British quirkiness added by the concept of Japanese design. (Stewart, 1998) He has been creating boutiques for clothing, offering avant-garde and unique collections. 50 years in the making, Jigsaw believes that fashion is temporary, but style is timeless. With this belief in mind, Jigsaw offers their customers stylish, timeless women's clothing for the independent-minded. Its target customer base is mostly between the ages of 28-50. Jigsaw sells a wide range of designer quality clothing at high street prices, but maintains a high level of quality. Jigsaw's clothing covers a wide range of items, with its products ranging from dresses, bustiers and jumpsuits to shoes, jackets, accessories and knitwear. With a relatively short product release cycle, its customers can be kept excited and visually appealing by a larger number of new products. Jigsaw's timeless understanding of the brand's fashion and meticulous attention to product quality has allowed it to gain a firm foothold in the mid-to-high end market.

Competitor — — Reiss

Since its founding in 1971, REISS has established a core design philosophy of creating modern menswear, womenswear, accessories and children's clothing that transcend the times and trends. Its international presence is also expanding, with a commitment to providing stylish, modern and thoughtful designs for men and women around the world. (Stewart, 1998) REISS' womenswear focuses on sensual elegance as well as simplicity and generosity, and is primarily aimed at female customers aged 25-40, while serving as a competitor to attract younger Jigsaw customers. Its main high-end market, and the main focus on the middle and high-end market Jigsaw each other as rivals, they have part of the overlap of target customers and style products, but REISS's obsession with design, so that its main high-end market let its production costs have increased, the average price of its main products in the 100-160 pounds, in contrast to Jigsaw in the market competition price advantage is weaker.

Swot Analysis: Jigsaw

Strengths: 1. Unique and avant-garde design 2. High quality products (fabric, stitching) 3. Forward-looking brand strategy (Park, 2012)

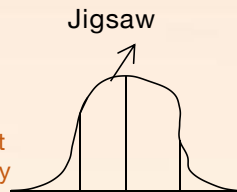

Threats: 1. Products in the high-end positioning, the background of slow economic growth, the consumer's desire to consume low 2. High competitive market pressure

Weaknesses: 1. Product age has limitations 2. Similar competitors product price advantage is weak

Opportunities: 1. Use of environmentally friendly materials, renewable materials, to enhance environmental awareness 2. Expansion of product coverage, coverage of all ages to expand

Fashion Curve Cycle

The Jigsaw brand pursues quality as well as timeless fashion, adopting a classic approach. Whistles' product range is relatively small and biased towards practicality, with a minimalist atmospheric style that changes slowly in the cycle curve. MNG as a FMCG product focuses more on the cycle of the fashion curve.

Competitor — — Whistles

Whistles is a British womenswear brand established in 1978 and based in London. Whistles creates a relaxed and laid-back feminine style with attention to detail and quality. Whistles' clothing is currently based on leather wallets, velvet and silk dresses, with attention to details such as hand embroidery and beading. Whistles is thoughtful, wearable and distinctive, with a true 7-day-a-week appeal, crafted to fit easily into modern life. At an average price of 94.89 pounds, the brand is priced slightly lower than Jigsaw, but the quality of its products and its target audience is in the 25-35 age range, which is a rival to Jigsaw. However, Whistles are more focused on adaptability and quality longevity, and are not as competitive in terms of fashion compared to Jigsaw.

Perceptual Map

The perceptual map compares quality and fashionability, showing the competitiveness of Jigsaw in the market. Jigsaw has higher quality without lacking fashionability, while in the comparison of competitors, REISS and Whistles focus more on quality and MNG more on fashion.

Complimentary Brand--Parada

Prada is an Italian luxury brand, the target group is more mature customers, its products are not so much about the treatment of materials, but emphasize the production of superb skills. Jigsaw clothing target group is similar to Prada, the same high demand for quality, but Prada brand has a long history and occupies the most favorable position in the psychological ladder of customers. (Parada, 2020)

Comparative Shop Summary

Competitor analysis of the industry can provide value for the next healthy development of the company. All four brands advocate the quality of the brand, and the brand strategy hopes to extend the life of the brand. But at the same time, their target customers are different. MNG's target customers are the youngest, while the price of its products are relatively low, providing a different choice for the young customers of REISS and Jigsaw brands. While Whistles focuses more on the practical qualities of the product, REISS in the pursuit of design, both and Jigsaw in a certain commonality of the case, each has its own characteristics.

Style

As old as civilization, the desire for warmth and sunshine is embedded in our DNA. Connecting people with nature using healing and tactile materials, mood-enhancing warm tones and biodegradable recycling concepts is a major trend for AW23/24's products. (WGSN 2022) Jigsaw can pair the main minimalist base with the warm tones of autumn, adding warm tones to the earthy color palette to give a touch of winter. Jigsaw can use maple leaves, a classic autumn/winter element Jigsaw can also incorporate bohemian style, fusing tradition and folklore to make vintage style pieces.

Directional Board——AW23/24

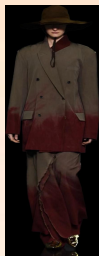

Colours

Jigsaw can take the deep reds, burgundies, tans and yellows that were popular for AW 23/24, sage and apricot crush, a feel-good but grounded palette that balances the energetic fruity bright with an overall mood paired by black, deep crimson and rustic tones. The pervasive warmth develops the grounding pigment trend for summer, adding sunny tones to vintage-inspired casual fabrics. Regular classic colorways are complemented by patchwork-style plaid colorways and woven floral accent colorways.

Key Silhouettes

AW23/24 clothing Jigsaw can take advantage of the silhouette cut trend pieces include silhouette wide shoulder suits, oversized sweaters, tight knit dresses, silhouette patchwork velvet coats, silhouette and floor length tweed coats and so on.

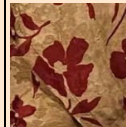

Jigsaw can take advantage of the silhouette wide shoulder trend, the silhouette wide shoulder suit will be one of the key pieces for Jigsaw AW23/24. It enlarges the collar, shoulders and sleeves year on year, clean and wrapped, presenting more of a sense of feminine power, untamed and casual.

Jigsaw can capitalize on the trend of high-waisted, wide-legged, high-waisted blazers will be one of the key pieces for Jigsaw's AW 23/24 collection. High-waisted, wide-legged blazers are comfortable, versatile and meet a wide range of occasions, which is what mainstream consumers are currently looking for in pants. Mainly urban in style, the overall presentation of a relaxed and comfortable atmosphere has become the key style of pants, with a variety of materials and loose fit to meet the mix and match styling style.

Prints

One of the popular AW23/24 prints — —maple leaf print. The maple leaf element creates an autumnal atmosphere, while also embracing the idea of recycling fallen leaves, adding to sustainability. (Roskill, 1970)

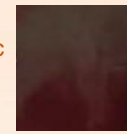

One of the popular AW23/24 prints — —rustic style. Using rustic floral patterns to create a romantic atmosphere of autumn and winter.

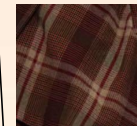

One of the popular AW23/24 prints — —bohemian style. The fusion of tradition and folklore, drawing on specific bohemian patterns, has been a popular trend. (Dawber, 2008)

One of the popular AW23/24 prints — —Botanical Halo. The botanical halo effect through the receding and wilting of flowers reflects the concept of sustainability.

One of the popular AW23/24 prints — —stripes and plaid. (Fogg, 2009)The jacquard fabric pieces are made in plaid, which contains more autumnal tones and adds a touch of retro casual.

Fabrics

One of the popular fabrics in AW23/24 — —cotton linen. The garments made from it are more straight and shapely, with a drapey texture and a functional anti-moth and sterilization effect.(Hsiao et al., 2017)

One of the popular fabrics of AW23/24 — —wool cashmere. It has strong moisture absorption and is strong in warmth, but also has very good stretch and elastic recovery.(King, 2012)

AW23/24 one of the popular fabrics - pure cotton. Its absorbent and breathable, the fabric is soft and elastic ensuring comfort while also relatively safe.(Androulaki et al., 2018)

One of the popular fabrics of AW23/24 - pure wool worsted. Soft and elastic, good sweat absorption, and very good pull up feeling, good durability(Hu, 2008)

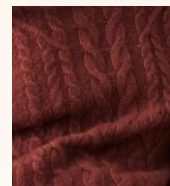

One of the popular fabrics of AW23/24 — —velvet. Its fabric adds a soft touch to its luxurious luster, which can improve its wrinkle resistance and hand fullness with some elasticity.(Cachin, 2016)

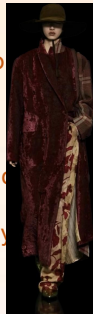

Details - Trims,

Embellishments, style ideas

Jigsaw can take advantage of the soft, more tactile stitches popularized by AW23/24 and incorporate everyday essentials with a warm, comfortable touch, visually more eye-catching development and use subtle surface twist textures to enhance the minimalist design. Using comfortable plush stitches, appliqués and an ergonomic and contoured design.(King, 2012)

Jigsaw can take advantage of the patchwork design trend and the silhouette patchwork coat will be one of the innovative pieces for Jigsaw AW 23/24. The patchwork style reflects the characteristics of tailoring, different materials, color blocks, and new structures to make the garment interesting, leaving the formal feeling of constraint and giving it more rhythm, thus presenting the visual effect of a woman's sophisticated and artistic dressing. (Diane and Cassidy, 2009)The color division makes the clothing become interesting, say goodbye to the formal sense of restraint, for example, you can use the red velvet and red plaid shirt stitching design, will present a different visual effect.

Jigsaw can capitalize on the slim fit dress trend and the knitted slim fit dress will be one of the key new products for Jigsaw AW 23/24. The slim fit is perfect for the female figure and the look is both office and casual. Jigsaw can also add ethnic prints to knitted dresses or use botanical dyes for variety.

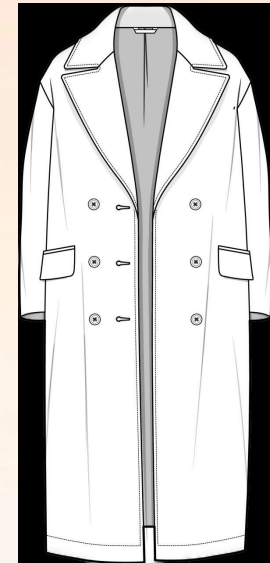

Trend Translation Board——AW'23/24

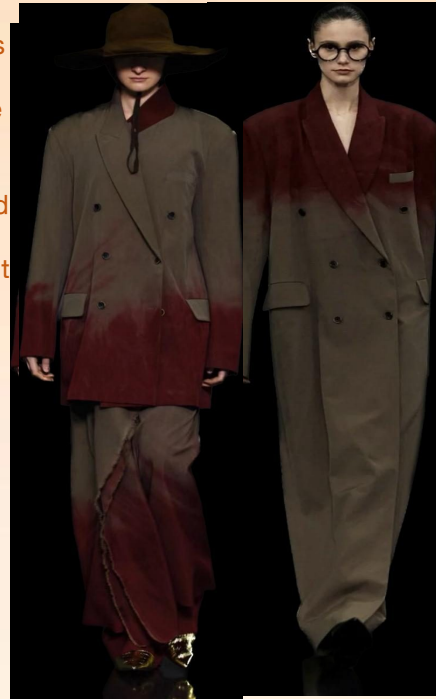

Key Silhouettes

The AW 23/24 theme uses the warmth of autumn and the falling leaves will eventually blend into nature, reflecting the inclusive nature of the clothing silhouette, and the silhouette suit is a perfect reflection of the inclusive nature of the clothing silhouette, Jigsaw's silhouette jacket, incorporating the inclusive element into the oversize style popular among women, taking advantage of the silhouette wide shoulder trend the silhouette wide shoulder suit will be one of the key pieces of Jigsaw 23/ One of the key pieces for Fall/Winter 24. (WGSN, 2022) It enlarges the collar, shoulders and sleeves year on year, clean and wrapping, presenting more of a sense of feminine strength and inclusiveness, and along with the casual vibe of autumn, it reflects warmth in the outfit and takes into account commuting, perfect for women in the workplace.

Colour

The warm theme of fall in the AW 23/24 in the adoption of a warm fall color palette featuring the deep reds, burgundies, tan and yellows popular in the AW 23/24, sage, apricot crush is a feel-good but grounded palette that balances the energetic fruity bright with an overall mood paired by black, deep crimson and rustic tones. (Dawber, 2008)The pervasive warmth develops the grounding pigment trend for summer, and the palette can be further expanded to add sunny hues to vintage-inspired casual fabrics.

Prints

The most important element of the autumn warmth theme reflected in the AW apparel print is the maple leaf. In the AW 23/24 apparel design, the classic autumn/winter element of maple leaf is cleverly used to appeal to the autumn warmth theme and constitute the autumn atmosphere, and the concept of sustainability is further sublimated by using the idea that maple leaf is biodegradable. Secondly, at the same time, the bohemian style is integrated, blending tradition with folklore. (Androulaki et al., 2018)The weathered and wild flowers and plant patterns are fused into the material surface in the print to make a vintage style piece.

Fabric

The fabrics used include velvet, wool and cashmere, which reflect the warmth of autumn. The silky smooth touch of velvet and the moisture absorption and stretching of wool and cashmere bring a comfortable feeling, just like the bright autumn sunshine on your face. Cotton and linen materials are rich in breathability and comfort, so that the coolness of autumn is also incorporated.

The range for this A/W 23/24 collection was designed by Jigsaw based on the garments sold in its stores, and the garments were defined within the range in terms of colors, styles, textiles, cuts, and details that reflect the warm trends of fall. While fleshing out the range, it is important to coordinate it in several ways.

The first is the price, Jigsaw as a high-end brand, facing the consumer's age group is concentrated between 25-40 years old, in the creation of the price range of the eight pieces of clothing, mainly concentrated in the range of 100-200 pounds, the price also reflects the product differentiation, can let consumers have a choice.

In terms of style, because the theme is designed for the warmth of autumn, there is a general definition of the range of clothing style options, and the eight pieces of clothing, silhouette suits, bohemian-style knitted dresses, velvet patchwork jacket are all within this range of different designs.

Secondly, in terms of color, the concept of range definition is relatively clear. The palette used is mainly to reflect the theme of autumn warmth, and the palette used for the eight pieces of clothing includes burgundy, crimson, tan, apricot fruit crumble, sage color, etc. The range is relatively clear in terms of color.

Secondly, in terms of the range of fabrics, Jigsaw, as a product for the middle and high-end market, has a high quality of products and can set a high budget for material costs, so the main materials used include wool and cashmere, velvet, golden velvet, cotton and linen, etc. At the same time, it also takes into account the theme, the renewable concept of returning leaves to nature, and uses biodegradable materials in wool and cashmere materials, as well as We used biodegradable materials and eco-friendly materials for wool and cashmere.

Secondly, in this aspect of tailoring, tailoring is mainly reflected in the patchwork style clothes, the range of clear restrictions are more obvious, while other styles of clothing cutting instructions are more conventional way, but more attention is paid to the three-dimensional sense of tailoring.

Finally, in the design of various details of the clothing, the range of restrictions is relatively small, and the free play of the design is more likely to bring the clothing to life and attract consumers, but the maple leaf element is a classic element in the AW23/24 clothing series, so an element that must be added to the print range, taking into account the representativeness of the classic elements, and more likely to achieve hot saturation.

Overall, I think the range I designed covers the skeleton of the chosen theme in general, while Jigsaw, as a brand pursuing fashion, also needs to be considered in terms of cost and clothing inventory today when the consumer trend is more and more obvious. The cost and selling price of 8 pieces of clothes are limited to a range.
